PROUD LITTLE LEARNERS

Weekly kindergarten math

Week 5 of 8

Stories within 5

Number sentences within 5, then tiny stories a grown-up reads aloud.

Before you start
Start here if your child can combine two groups with totals up to 5.

Inside this week

- 7 practice pages
- An answer key for every practice page
- A one-page note for the grown-up
- A small progress tracker

US Letter · print in black and white · about 10 minutes a day

This week's note

How this week goes

About 10 minutes a day. Your child does not have to read the stories. You do.

I do, we do, you do

Problem 1 is marked I do. Do it out loud. Problem 2 is marked We do. Do it together. Your child does the rest. If the rest falls apart, do one more problem together.

What is on each page

Practice pages 1 to 4 are sentences: with pictures, by counting on, as plain sentences, then writing every number. Practice pages 5 to 7 are stories. Practice page 5 asks only for the total. Practice pages 6 and 7 ask for the whole sentence. Totals on the first story page are small because the story is new.

If your child gets stuck

Ask What happened in the story before How many now. If a sentence is a guess, go back to practice page 1 and match each group to a number.

When to go to next week

Next week is adding within 10. Move on when the stories on practice pages 6 and 7 need only a little help.

What you need

A printer, US Letter paper, and a pencil. Counters such as cereal or coins are optional.

License

Personal, homeschool, and single-classroom use. You may print copies for the children you teach. Do not resell this file or redistribute it.

These are practice pages. They are not a test, and they are not a promise of a particular result.
