Weekly kindergarten math

Week 6 of 8

Adding within 10

Grow totals from 5 to 10, with pictures and a ten-frame.

Before you start
Start here if your child is comfortable adding within 5.

Inside this week

- 8 practice pages
- An answer key for every practice page
- A one-page note for the grown-up
- A small progress tracker

US Letter · print in black and white · about 10 minutes a day

This week's note

How this week goes

About 10 minutes a day. A new total arrives only after the one before it feels workable.

I do, we do, you do

Problem 1 is marked I do. Do it out loud. Problem 2 is marked We do. Do it together. Your child does the rest. If the rest falls apart, do one more problem together.

What is on each page

Practice page 1 reviews totals within 5. Practice pages 2, 3, and 4 introduce 6, then 7, then 8, with pictures. Practice page 5 is the ten-frame. A full top row is 5. Practice pages 6 and 7 add on the frame, to 8 and then to 9. Practice page 8 is the first page with a total of 10, written as a sentence.

If your child gets stuck

On the frame, say Top row first. That row holds 5. If practice page 8 is a guess, return to practice page 7 and add one counter to a total of 9.

When to go to next week

Next week is taking away within 5. Move on when sentences to 10, including practice page 8, need only a little help.

What you need

A printer, US Letter paper, and a pencil. Counters such as cereal or coins are optional.

License

Personal, homeschool, and single-classroom use. You may print copies for the children you teach. Do not resell this file or redistribute it.

These are practice pages. They are not a test, and they are not a promise of a particular result.
