Weekly kindergarten math

Week 7 of 8

Subtracting within 5

Take some away and count what is left. Totals start at 5 or below.

Before you start
Start here if your child can count to 5 and add within 5.

Inside this week

- 7 practice pages
- An answer key for every practice page
- A one-page note for the grown-up
- A small progress tracker

US Letter · print in black and white · about 10 minutes a day

This week's note

How this week goes

About 10 minutes a day. Nothing on these pages starts above 5, and you never take away more than you have.

I do, we do, you do

Problem 1 is marked I do. Do it out loud. Problem 2 is marked We do. Do it together. Your child does the rest. If the rest falls apart, do one more problem together.

What is on each page

Practice pages 1 to 3 show the take-away already crossed out. The starting number grows from 3 to 4 to 5. Practice pages 4 and 5 ask your child to make the crosses. Practice page 4 steps back to smaller numbers because the marking is new. Practice page 6 writes a sentence. Practice page 7 is a story you read aloud.

If your child gets stuck

Say These were here. These went away. Count the ones still filled in. Match counters to the circles and physically take the counters away if the crosses are confusing.

When to go to next week

Next week leaves addition and subtraction for shapes and patterns. Stay on this week if the stories on practice page 7 still need a lot of help.

What you need

A printer, US Letter paper, and a pencil. Counters such as cereal or coins are optional.

License

Personal, homeschool, and single-classroom use. You may print copies for the children you teach. Do not resell this file or redistribute it.

These are practice pages. They are not a test, and they are not a promise of a particular result.
