P

PROUD LITTLE LEARNERS

Weekly kindergarten math

Week 1 of 8

Counting to 5

Count buttons up to 5, draw a number, and say what comes next.

Before you start
Start here if your child can point to objects one at a time.

Inside this week

- 7 practice pages
- An answer key for every practice page
- A one-page note for the grown-up
- A small progress tracker

US Letter · print in black and white · about 10 minutes a day

This week's note

How this week goes

This week is counting, not adding. About 10 minutes a day. One page is enough. Do practice pages 1 to 7 in order. The answer key for each page is at the back.

I do, we do, you do

Problem 1 is marked I do. Do it out loud. Problem 2 is marked We do. Do it together. Your child does the rest. If the rest falls apart, do one more problem together.

What is on each page

Practice pages 1 to 3: count a group and write how many. Practice page 3 includes an empty bowl, which is 0. Practice page 4: read the numeral and draw that many dots. Practice page 5: write the number that comes next. Practice page 6: count two groups, but do not add them. Practice page 7 is a short counting review.

If your child gets stuck

Say Touch each button as you count. If practice page 1 is hard, count real buttons or cereal together, then come back to the page.

When to go to next week

Next week is counting to 10. Move on when your child can count groups up to 5 with only a little help, including practice page 7.

What you need

A printer, US Letter paper, and a pencil. Counters such as cereal or coins are optional.

License

Personal, homeschool, and single-classroom use. You may print copies for the children you teach. Do not resell this file or redistribute it.

These are practice pages. They are not a test, and they are not a promise of a particular result.

Name _____ Date _____

Count the buttons

Count the buttons. Write how many.

6  ☐

Progress tracker

Color a star, or put a sticker on it, when a practice page is finished. About 10 minutes is enough for a day.

1. Count to 5 
2. Count mixed groups 
3. Count, including 0 
4. Draw the number 
5. The next number 
6. Count two groups 
7. Count review 

For grown-ups. Match the practice page number.
