Weekly kindergarten math

Week 4 of 8

# Adding within 5

Put two snack groups together and write totals up to 5.

**Before you start**
Start here if your child can count objects up to 5.

## Inside this week

- 7 practice pages
- An answer key for every practice page
- A one-page note for the grown-up
- A small progress tracker

US Letter · print in black and white · about 10 minutes a day

# This week's note

## How this week goes

About 10 minutes a day. Totals stay at 5 or below and grow one step at a time.

## I do, we do, you do

Problem 1 is marked I do. Do it out loud. Problem 2 is marked We do. Do it together. Your child does the rest. If the rest falls apart, do one more problem together.

## What is on each page

Practice page 1 counts two groups and stops there. Practice pages 2 to 4 write the total, first to 3, then 4, then 5. Practice page 5 introduces the number sentence, so the totals step back. Practice page 6 brings the sentence up to 5. Practice page 7 is sentences without pictures.

## If your child gets stuck

Say Count this group. Count the other group. Now count every snack. If the plus sign is new, say Plus means the groups go together.

## When to go to next week

Next week keeps totals within 5 and adds stories. Move on when practice page 7 is correct with only a little help.

## What you need

A printer, US Letter paper, and a pencil. Counters such as cereal or coins are optional.

## License

Personal, homeschool, and single-classroom use. You may print copies for the children you teach. Do not resell this file or redistribute it.

These are practice pages. They are not a test, and they are not a promise of a particular result.
